

REDZONE PRO

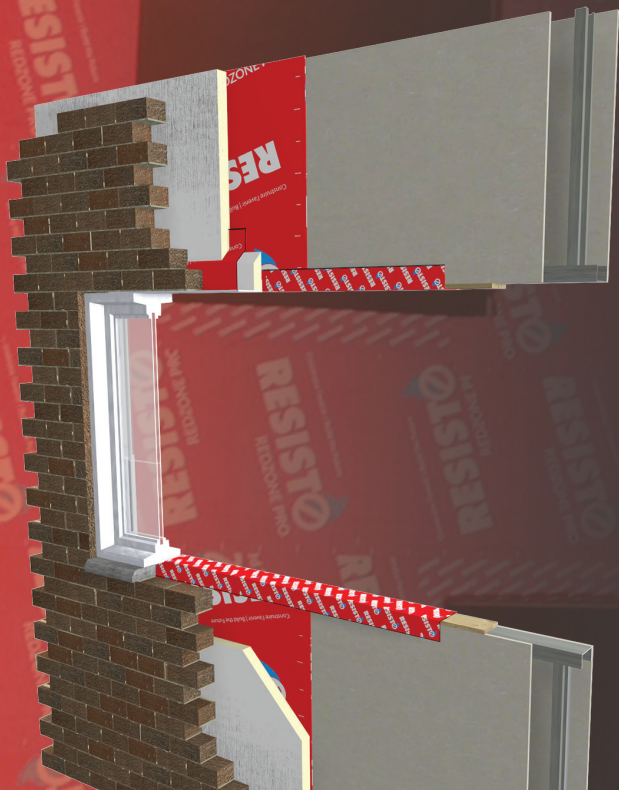

SELF-ADHESIVE THROUGH-WALL MEMBRANE

FEATURES

- Excellent adhesion to various substrates
- Ideal for sprayed polyurethane foam insulation
- Self-adhesive: easy, fast and economical to install
- Self-sealing membrane ensuring continuous waterproofing

RESISTO
Build the Future

REDZONE PRO is a self-adhesive through-wall membrane designed for light commercial buildings. It ensures air and water vapor waterproofing. REDZONE PRO is composed of SBS modified bitumen and a tri-laminated woven polyethylene facer. The tri-laminated woven polyethylene is compatible with the use of sprayed polyurethane foam insulation.

REDZONE PRO is also used as masonry flashing, transition membrane and waterproofing membrane around openings.

Required products

Prepares and evens the surface to improve adhesion of REDZONE PRO

EXTERIOR PRIMER

or

H₂O PRIMER

or

LOW V.O.C. PRIMER

Complementary product

ELASTOMERIC SEALER:

Caulking mastic for filling of joints and cracks
